

LINEAR COMPACT PREMADE POUCH MACHINE

Product Description

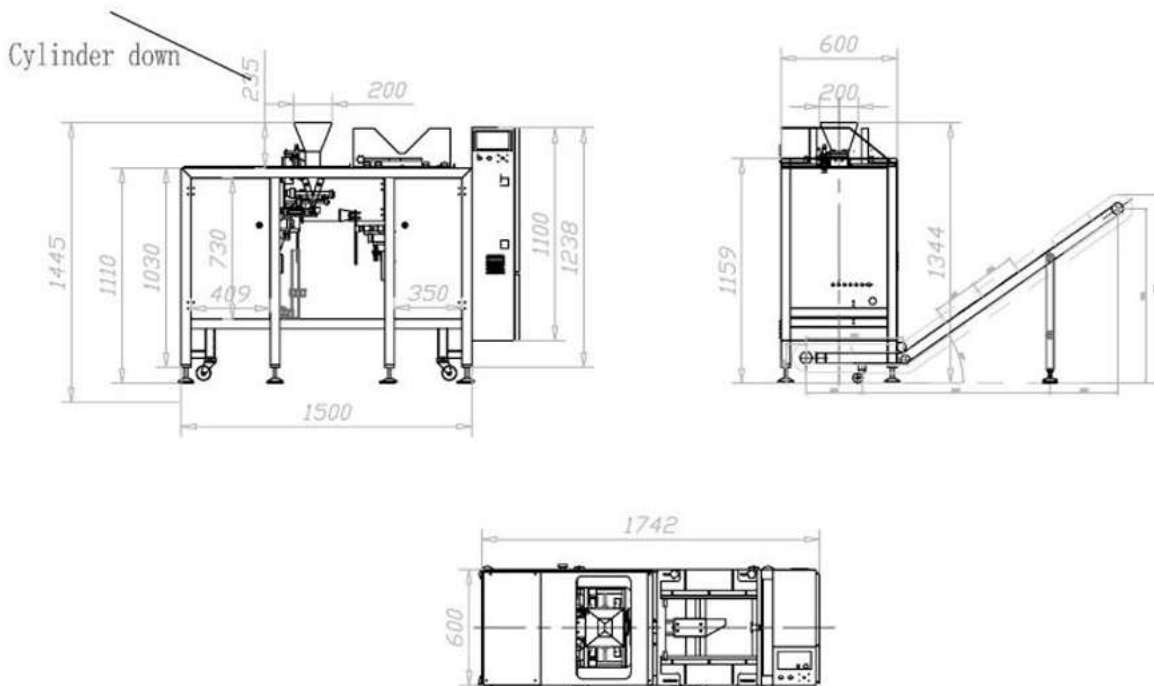

Stream Peak's Linear Compact Premade Pouch Machine is a general-purpose & compact pre-made pouch machine, available for a variety of bags such as; DoyPack with zipper, 3/4 side seal pouch, stand-up bags, and much more bag types. The machine is able to fill granule, powder, liquid substances such as; Coffee, Beans, Pet-Food, Food & Non Food products. Versatile & efficient, the machine aids in packaging operations, seamlessly filling your goods without hassle.

Easy to use, our machine requires little to no training to operate, simply put some pouches on the bag loading device at the top of the machine whereby the machine will complete the process. A sucker like hand would be sucked to the pouch opening it, filling your goods in & sealing the pouch, next the pouch would be automatically be output from under the conveyor.
